

SIMRAN KAUR

Cybersecurity Analyst | VAPT | Application Security | CRTA

+91 87683 84108 • simrankaur0101010@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#) • Kolkata, India

PROFESSIONAL SUMMARY

Cybersecurity professional with hands-on experience in vulnerability assessment, penetration testing, network security auditing, and web application security testing. Skilled in Burp Suite, Nessus, OpenVAS, and OWASP ZAP, with practical knowledge of OWASP Top 10, CVE analysis, MITRE ATT&CK, and NIST CSF. M.Sc. in Advanced Networking and Cyber Security with practical VAPT internship experience and certifications in Red Team Operations Management (CRTOM), Certified Red Team Analyst (CRTA), and LLM Security (CLLMSP). Interested in application security, web penetration testing, vulnerability research, and security automation

TECHNICAL SKILLS

- **Penetration Testing:** Nmap, Burp Suite, Metasploit, Web Application Testing, Network Enumeration, Vulnerability Exploitation, Privilege Escalation, Report Writing, Vulnerability Assessment: Nessus, OpenVAS, OWASP ZAP, CVE Analysis
- **Frameworks:** OWASP Top 10, MITRE ATT&CK, NIST Cybersecurity Framework
- **Forensics & Analysis:** Wireshark, Autopsy, Volatility, FTK Imager, Evidence Acquisition, Chain of Custody
- **Networking:** TCP/IP, DNS, HTTP/HTTPS, DHCP, VPN, Firewalls, Routing and Switching
- **Cloud & OS:** AWS, Microsoft Azure (AZ-900), Kali Linux, Ubuntu, Windows
- **Version Control:** Git, GitHub

CERTIFICATIONS

- **Certified Red Team Analyst (CRTA)** | CyberWarfare Labs — Sep 2026
- **Certified Red Team Operations Management (CRTOM)** | Red Team Leaders — Jan 2026
- **Certified LLM Security Professional (CLLMSP)** | Red Team Leaders — June 2026
- **Microsoft Azure Fundamentals (AZ-900)** | Microsoft — 2024

WORK EXPERIENCE

VAPT Intern | Brainware University, Kolkata

May 2026 – Present

- Conducted vulnerability assessments and penetration testing across web applications and internal networks, using Nessus and OpenVAS for automated scanning and Burp Suite for manual web application testing.
- Performed network security audits to identify misconfigurations and exposure points, mapping findings to the OWASP Top 10 and relevant CVEs.
- Authored vulnerability assessment reports and supported senior analysts in severity triage and remediation prioritization.

PROJECTS

ShadowMap – AI-Driven Attack Surface Intelligence Platform |

- Built an AI-integrated GUI for Nmap that performs real-time CVE mapping based on service versions, delivers intelligent security insights.
- Integrated multi-source OSINT enrichment along with domain & subdomain enumeration, enabling deep reconnaissance and structured assets discovery with reputation profiling.

Network Reconnaissance & Enumeration Toolkit |

- Built a unified command-line toolkit in Python integrating 11 Kali Linux reconnaissance tools, including Nmap, Nikto, WhatWeb, Netdiscover, and ARP-scan, into a single interface.
- Streamlined network reconnaissance workflows for penetration testing engagements, eliminating manual tool-switching.
- Documented usage and scope on GitHub with clear disclaimers for educational and authorized-testing use.

AutoTrace-Windows – Digital Forensics Acquisition Tool |

- Designed a Windows digital forensics tool in Python to automate acquisition of user activity artifacts and Windows Security Logs.
- Collected Chrome/Edge browsing history and failed login events to support forensic evidence gathering and user activity timeline reconstruction.
- Implemented structured JSON output to streamline forensic analysis, reporting, and DFIR investigations.

Password Strength Analyser |

- Developed a web-based tool to evaluate password strength in real time using length checks, character variety, and commonpattern detection.
- Implemented instant feedback to flag weak passwords and improve user awareness of secure password practices.

ACHIEVEMENTS

- **Runner-Up – BRAINCON 2026 (Intra-college CTF)**, Brainware University, solving challenges across web exploitation, cryptography, and forensics
- **International CTF Competitor:** SecLeaf Q2 CTF 2026 (**184/1034, Top 18%**), BroncoCTF 2026 (**128/1016, Top 13%**), and boroCTF 2026 Open Division (**89/645, Top 14%**), demonstrating skills in Web Security, Cryptography, OSINT, Misc, Digital Forensics, and Steganography.

EDUCATION

M.Sc. – Advanced Networking and Cyber Security | Brainware University, Kolkata 2024 – 2026

Bachelor of Computer Applications (BCA) | Jyotinivas Autonomous College, Bangalore 2020 – 2023
